THE VARYING SCENES OF A LIFETIME.

BY ELSIE GARNETTE. (CONTINUED.)

CHAPTER VI.

A GATHERING CLOUD. " Alas! when fiendish passion claims the heart,

Or sordid interest rules the will, How many a heart we may make sad! How many a home with sorrow fill!

"Surely it must have been!" exclaimed handsome, dark-eyed man, as he sat in his room the evening of Irene's departure, "vet how could it be possible? I must know the truth of this. I will go to old Dover's cottage, and see what I can find out, I know she is there; for I watched Ingrum, and I know he carried her there. Though her fortune is gone I will have her, and then won't I pay her for all her flirting? Ha! ha! ha! let me away."

So saying, he arose, and quaffed an inebriating draught, then went out on his fiendish mis-

A short distance from the house he came near meeting Roland Ingrum, as he went away, but he plunged quickly into the woods, and

was not observed. "Floods, flames and furies!" he exclaimed if I didn't come near spoiling it all. If that monkey had seen me! but he didn't, so I must

proceed." He arrived at the cottage, and crept stealthily around until he learned the room which contained the object of his search, and he then seated himself until all was still in the house; then arising he climbed noiselessly to the win-

dow and gazed in. All doubt was then removed; for there, on a low couch, lay Irene, with one delicate white hand laying gently on the snowy counterpane, while the other supported her fair soft cheek.

A demoniac smile of exultation crossed his face as he descended and made his way quickly back to his room.

as he has something of importance to communicate to her. Her curiosity will be excited, alas! her thoughts were not clothed in the briland of course she will go. Then, hurral for liant line of joyous anticipation, but in the somty bird there, and make her my wife, or make opened and Seaton Ray entered. Her face that proud head of hers when she sees me, but agproached and grasped her hand as he exlittle will I care; she will be in my power, and claimed in a light tone: no powers of earth or hell shall ever take her from me again."

Reader, do you ask who this cold-blooded villain is? It is no other than SEATON RAY, ha! ha! you thought I was dead, did you? Not Do not shudder with superstitious horror. It is no ghost, nor spectre from the tombs. Although he was left by the injured Ingrum for dead, he had received but a slight wound; but his base, cowardly heart felt the injuries he had inflicted on Roland Ingrum, and he truly feared him, and he concealed himself until he heard of the failure of Col. Page, and he then depart- plied: ed for the city of P--, where he plunged recktessly into all the crimes and dissipations which usually follow a fiendish passion disappointed, or an eager avaricious ambition un-

But here with many sighs we leave him, floating swiftly down the current of sin-yes, hurrying on with fearful strides to that brink, from which so many immortal beings have plunged into the fathomless gulf of perdition.

Two months passed, and still Irene remained at Dover cottage. The dark, cold clouds of winter were gone, and the gentle zephyrs and pleasant sunshine of spring east gladness over the earth. In the pleasant society of the gentle Ella, and the kind parental tenderness of Mr. and Mrs. Dover she became almost happy. The sisterly tenderness she felt for Ella, and the quiet pleasantness of the cottage and its surroundings, soothed her mind and her face wore un expression of pleasing melancholy instead of the proud, haughty air, or the look of sullen grief and endurance that it had worn in by-gone days.

She had become familiar with all the wild walks of the surrounding country, and her chief amusement was to wander among the sublime scenery of nature; sometimes with Ella, and sometimes with no companion save a book. She would wander to the side of a brook which wound its silvery way through the beautiful grounds in the rear of the cottage, and seating herself an a rude bench, 'neath a spreading willow, she would experience a degree of tranquility never known to her before. On arising window and gazed out. The sun had risen in one morning she observed a note on the sill of the morning in all his gorgeous splendor, but her window and picking it up she read as towards noon a dark, angry cloud obscured its

A matter of vast importance to yourself induces me to urge you to meet me, to-night. by the side of your favorite brook. Come, sure to ROLAND INGRUM,"

Irene's face paled as she read, and all thro' that day her mind was busy picturing scenes of coming distress. Her melancholy was observed by her friends, but they attributed it to her former distress and said nothing.

At length the sun finished his course and sank in solemn grandeur beneath the western

wild, wandering, though kind and loving brother. Alas! unconscious one, how little she knew what a dark and dreadful enemy she would meet. When she arrived all was still. save the cheery chirp of insects and the solemn purl of the gentle brook, and she seated herself on the bench which she had often occupied, to await the coming of her brother. She had sat but a few moments when she heard footsteps advancing and quickly she was enveloped in a heavy cloak. She endeavored to shriek, but her utterance was impeded and she felt herself born quickly along. At length she came to a stop, and she was placed in a low and scantily furnished room. At first her powers of endurance almost gave way, and her frightened imagination presented such doleful pictures of future distress that sleep was impossible; but wearied nature at length triumphed and she sank upon her mean couch, and sleep wooed her to his embrace. Thus we will leave her for

a time and return to Dover Cottage. The following morning the family noticed that Irene did not arise as early as usual, but they paid no attention to it until the breakfast hour arrived and still she did not appear, and Ella flew to her room, but soon returned, pale and trembling, stating that she was not there, neither had her bed been occupied the previous night. Terror immediately seized upon the hearts of all, and the house, grounds, and, at length, the whole city was searched, but with no success. Ella's grief was almost unbounded, and she wandered sadly through the grounds she had so often enjoyed with Irene. As she walked slowly along, she observed Roland Ingram some distance from her, Flying quickly after him she cried:

"Tell me, in mercy tell me, strange individual, if you know anything of Irene?"

"Of Irene," he answered in surprise; "i she not with you?"

"She has been," replied Ella, "until last night. She retired somewhat melancholy, and on going to her room, this morning, we found it had not been occupied. We have searched everywhere for her, but can find no trace of her. Cannot you give us some intelligence?"

"I do not know anything of her," he answered, "but you may return and rest satisfied I will find her, Farewell, sweet girl, if you are ever in distress come to me at my cave by yonder brook, and I will befriend you. I was your mother's friend, I will also be yours."

"Tell me, I beg you," she said, "something of my mother's history before I go." Accordingly he led her to a sent, and gave her a brief history of her mother's life and

CHAPTER VII.

IRENE'S RELEASE. The morning after Irene's imprisonment, she

arose from her miserable bed just as the first "Ha! ha!" he cried, as he seated himself dawn of day gilded the eastern horizon. She again by the fire, "fortune is surely in my favor had not disrobed herself the previous night, this time. What a lucky thing it was for me and consequently had no toilet to make, and that I went out this evening. But how shall I she proceeded to examine her room. She walkproceed. Ah! thanks to my skillful brain, I ed to the door, but shuddered as she found it have it already. I will keep a good lookout securely fastened. She then proceeded to the until she has recovered, and then I will write a only window the room contained, and found it hasty note, in Ingrum's name, telling her to fastened also, For some time she stood gazing meet him some certain night, at a stated place, out through the small, dingy window, at the earth, her whole soul bathed in meditation; but me. I will have a place provided for her, and a bre garb of dismal, dread uncertainty. She horse in readiness, and I will conduct my pret- had remained thus for some time when the door her think so. Dear life, won't she toss paled and she almost sank to the floor, but he

"Good morning, cousin Irene; it has been some time since we met-but, dear me! you needn't look so horrified. I am no ghost! Ha! vet-but come, you don't look a bit glad to see a body, while I am perfectly delighted to see

my proud little cousin once more." At these words the expression of horror that at first overspread her countenance faded, and in its place came one more scornfully cold than she had ever worn in former days, and she re-

"No, sir! I am not glad to see you, and I would be greatly obliged if I were relieved of

"Really," he answered in a sneering tone. 'you seem to be in a very fine humor this morning; but come, be seated, and let's talk of

"Villain," she sneered, "leave me immediately, or I shall quit the room." "Not so fast, my little lady, and for the ex-

cellent reason that you cannot. " Seaton Ray, you surely do not intend to

hold me in confinement?" "Yes, ma'am, I intend to do precisely that thing, until you promise to become my wife."

under any circumstances, marry such a base, cowardly villain as you." "Just as you choose, madam," he replied,

"Your wife!" she exclaimed, "then be as-

sured I will remain sometime, for I never will,

and with a demoniac smile, he withdrew.

When left alone Irene abandoned herself to the full tide of her grief, and wept long and bitterly; but hope, the sweet soother of our sorrows, east its shadow over her grief, and she became composed just as a stout negro woman entered with her breakfast. It was nicely prepared and she partook heartily of it, and felt much revived. With remarkable heroism she nerved herself to endurance, and resolved to await with patience the coming of future events, and she spent the first long weary day as best lustre, and as she gazed the large drops of rain came swiftly to the ground.

"Ah!" she murmured, as her thoughts rolled back over the chasm of a few years, "how emblematical of my life.

"In youth's fair morn my heart was gay; No shadows darked my life's clear sky; No blighting breath of sorrow's blast; No storms and tempests gathered nigh

But soon affliction's dark'ning cloud, In sombre garments robed the sky; hills, and Irene again went out to meet her The wind went roaring swiftly by. Wild, fiercely blew the beating rain; And now though spring smiles o'er the earth, 'Though birds and bees so sweetly sing, They can, to such a heart as mine, No thrill of joy or pleasure bring.

I smile not now-though earth is fair. My life's so dark, so very sad, I cannot love as once I loved, The music of the free and glad.

But shall I grieve o'er pleasures gone; O'er scenes that can return no more? Rather regret I did not choose A wiser course in days of yore.

I did not heed the accents sweet, 'Ye children, early come to me; I'll guide your feet. I'll light your path, All needful things I'll give to thee.

But now, through sorrow's loud, rough voice, I hear a call to flee from sin. I'll go! I'll seek the Saviour's side,

A crown of life I'll strive to win."

As these thoughts rolled through her mind, like many a guilty, penitent, she cried: "Lord, save or I perish!" and she sank upon her knees and long and earnest was her prayer; but thro the intercession of a crucified Saviour she found pardon at length, and in the divine felicity of that hour she feared no ill.

"No,' she cried, "though all the world looks dark, I will look to Jesus and smile."

With the holy enthusiasm of a youthful christian, she turned and began to prepare to retire, as it was then growing late. As she stood by a small table she heard a light rap on the window, and looking quickly up she beheld | Lady Huttington, who died in 1792. her wandering brother.

A thrill of joy passed over her frame and she flew to meet him, and was going to speak, but he motioned her to be silent and immediately disappeared. She heard a noise at her side directly, and soon one of the logs in the wall moved and fell to the ground. Another soon shared its fate, and then Roland grasped her by the arm and hurried her out and along through the open air, until they came to a dense thicket which seemed to enclose the house. Through this also they made their way rapidly, and soon reached the open road. Roland, seeing that she was growing weary, took her with respectful delicacy, in his arms and bore her swiftly along till they reached a certain spot by the side of a brook. Irene imagined she had seen the place in some dim remembered scenes of the past, but she knew not when and consequently Psalm. "I love thy kingdom, Lord," will per- for him, and one of their number brought him they would guit it if they could. Boys somesaid nothing. Roland placed her on the ground | petuate his memory. and after looking carefully around, to see that his home. She shuddered slightly as he took poets. "One sweetly solemn thought," written neighboring dugout, from which by some thy habit. When they were comfortably heart like a dirge. seated in this subterranean apartment, he inquired minutely into all the circumstances connected with her being carried off, and his eve fashed as he heard her recital; but he only bade her rest easy, as nothing should ever harm her while he had life, and he soon arose and handing her a huge candle he showed her thro' a small door, into another room, where she found a neat looking bed, and he told her to retire and seek rest. As she was "tired and sleepy too" she did as she was requested and slept soundly and quietly until a late hour the next morning. When she awoke she arose and hastily prepared her toilet and entered the other room, where she found a neat and wholseso me breakfast, prepared by the dark, rough hand of noticed that it produced a degree of cold equal her wild, wandering brother, who sat in the to the coldest day of that year. As that day corner awaiting her coming. After a few was the coldest that "the oldest inhabitant" words of greeting they scated themselves and partook heartily of the substantial food before them. After breakfast Irene insisted that she should clear away the table and did so, while Roland went out for some game, which he gaily told her was in honor of her coming. Both seemed delighted with the novelty of their situation, and conversed pleasantly until they had prepared and eaten their dinners, and then point, which he numbered 212, and the freezing Roland observed that, according to promise, he point 32. Because as he thought, Mercury conmust go out and inform Ella Graham that he tracted the 32d of its volume on being cooled had succeeded in finding her.

"Ella Graham!" exclaimed Irene, "can it be possible that I am near her again?"

"Certainly," he replied, "you are very near; but you must remain here, lest you are discovered again. After you were gone Ella came to me, in an agony of grief, and begged me to find you, and I started immediately. I had searched but a short time when 1 suddenly encountered that arch-fiend, Seaton Ray, as be went to torment you. I knew immediately, in whose power you were, and I followed him until night, and the rest you know. Do not feel uneasy; no one will find you here but Ella. I will go now and bring her to you."

He soon returned, and, sure enough, Ella came with him. The two were in exstacles at meeting each other, and spent an hour quite pleasantly, and then Ella went out and returned to her home, promising to call again soon.

(TO BE CONTINUED.)

SOME GOOD HINTS. A correspondent of the Germantown Tele-

graph offers the following hints: "It doesn't pay to re-set thin wheel-tires.

The chiei strength of the wheel lies in the rim. "There is great economy in soaking the felloes of business-wagon wheels with raw linseed oil: it will preserve the wood and save the necessity of frequent tire setting, an operation to

"When you buy a new fork or hoe, good farming requires that you oil the handle. It and will wear longer.

credit to the owner, and a comfort to the animal that wears it. Soft harness is stronger than a dry, hard one. It is slightly elastic and bends without breaking.

"Horse-stalls are usually made too narrow. A tired horse needs room to turn over and stretch his limbs; fatal injuries come from confining spirited horses in short, narrow stalls. A friend had the best one of a valuable span kicked by a strange horse in a short stall. which broke a leg. A pair of western, handis now of trifling value.

WRITERS OF ONE HYMN.

The fame of writers rests on a single production. Defoe was a voluminous author, but "Robinson Crusoe" is all that has come down to us. "The Burial of Sir John Moore" has embalmed the memory of the Rev. Charles Wolf no less than that of the military hero.

It is so in sacred poetry, Take most favorite hymns, and you will find their authors composed nothing so popular. Their genius seems to have been exhausted by a single happy effort. Let us look at a few illustrations:

"Come thou fount of every blessing," was the earliest performance of Robert Robertson, awakened under the preaching of Whitefield. He was unstable, becoming Methodist, Independent, Baptist, and finally dying an avowed Socinian, in 1790.

"Rock of ages" is a glorious Christian lyric, and Toplady has left nothing half so precious. He began his ministry among the hills of Devon, iu 1778. Toplady was bitter enough in dispute but his spirit lost all its harshness when he tuned the instrument for sacred song.

Few hymns have been more frequently sung at times of especial religious feeling than "Come ye sinners poor and needy." Its author was Joseph Hart, born in London, in 1612. He began life as a teacher.

The Rev. Edward Perronet gave to the Church that grand march of the saints, "All hail the power of Jesus' name." His father was a clergyman of the English establishment, but he himself labored under the patronage of

"Nearer, my God, to Thee," has probably ouched more hearts than any other modern wmn. Sarah Fuller Flower, its author, was he younger of the two daughters of Benjamin Flower. In 1845 she was married to Adams, a civil engineer, and died in 1849, at the age of

forty-four. She was buried near Barlow, Essex. How many weary pilgrims have been cheered in passing through the dark valley by the consolation of "Just as I am, without one plea." Charlotte Elliot was an invalid from early years, and died in 1871. She was the third daughter of Charles Elliott, of Clapham,

College in 1795, prepared four ponderous volumes of theology, which few clergymen take from the shelf. His classic version of the 137th creek. The pursuers, however, were too much have followed the habit for years will tell you

THE HISTORY OF "ZERO."

It may be worth while to say that the word tself, "zero" comes to us through the Spanish from the Arabic, and means empty-hence. nothing. In expressions like '90 deg. Fahr.," the abbreviation stands for Fahrenheit, a Prussian merchant of Dantzic, on the shores of the Baltic sea. His full name was Gabriel Daniel

Fahrenheit. From a boy he was a close observer of nature, and when only nineteen years old, in the remarkably cold winter of 1709, he experimented by putting snow and salt together, and could remember, Gabriel was the more struck with the coincidence of his little scientific discovery, and hastily concluded that he had found the lowest degree of temperature known in the world, either natural or artificial. He called the degree "zero," and constructed a thermometer or a rude weather glass, with a scale graduated up from the zero, to boiling down from the temperature of freezing water to zero; and expanded 180th of its value on being heated from the freezing to the boiling

The three countries which use Fahrenheit are Holland, England and America. Russia and Germany use Reaumur's thermometer, in which the boiling point is counted 80 degrees above freezing point. France uses the centithe boiling point one hundred degrees from the from experience to be a very unlikely event.

freezing point. On many accounts the centigrade system is the best, and the triumph of convenience will be attained when "zero" is made the freezing point, and when the boiling point is put 180 or 1,000 degrees from it, and all the subdivisions are fixed decimally .- Northern Advocate.

THE FIRST PRAYER IN CONGRESS. In Thatches's Military Journal under date of December, 1777, is a note containing the identeal "first prayer in congress" made by Rev. hech Puchee, a gentleman of great eloquence. Here it is, an historical curiosity : O, Lord, our Kings, and Lord of Lords, who doest from thy Throne behold all the dwellers of the earth, and reignest with power supreme and uncontrolled over all the Kingdoms, Empires. and governments : look down in mercy, we beseech Thee, on these American States, who have fled to Thee from the rod of the oppressor and thrown themselves on thy gracious protection, desiring farmers, no nothing."-Fine Stock Guzette. to be henceforth dependent only on Thee. To Thee do they look up for that countenance and costs but a trifle, and your tool looks better, support which thou alone canst give. Take them, therefore, Heavenly Father, under thy "Good harness kept soft with neatsfoot oil is untiring care, give them wisdom in council and valor in the field. Defeat the malicious designs of our adversaries; convince them of the unrighteousness of their cause, and if they still persist in a sanguinary purpose, Oh! let the voice of Thine own unerring Justice, sounding in their hearts, constrain them to drop the weapons of war from their unnerved hands, in the day of battle. Be thou present, O, God of Wisdom, and direct the council of this honorable assembly. Enable them to settle things on the blood may be speedily closed, and order, har-

NEW YORK DRY GOODS TRADE.

July 13.—Business was not altogether so orisk to-day as might have been expected from the appearance of things vesterday. The causes assigned were various. Some blamed Saratoga and Cape May, but consoled themselves with the idea that when the great dry goods race came off it would be very much more interestng than the rapid evolutions of white-winged rachts or athletic scions of our seats of learnng. That painting and white-washing was senerally prevalent in order to garnish forth at-

cason for the comparative slackness. In prints there was moderate activity, few

lower priced chocolates going off rapidly. Print cloths were held firmly at 51c. for extras, and as no one appeared disposed to offer more than 5c. transactions were few and unimportant. Several mills have stopped recently, and there is a disposition to hold on to stock. There is no extensive quantity of goods on hand, and the prices are anything but remunerative. Manufacturers are preparing for a strike of the operatives within the next six or seven weeks. It is ruinous, they say, to run the mills at present prices of goods and high rate of wages, and equally disastrous to stop them for any lengthened period. That the hands should grasp the situation and accept grade thermometer, so called because it marks the inevitable reduction of wages is known

VALUE OF GRASS.

What can be done with grass may be illusducts of England and France. In France 53 per cent. of the cultivated land is under cereals; in England but 25 per cent. France that the laws of geometry and mechanics are produces five and a half bushels per acre for exactly and absolutely true, and that they have her 35,000,000 people; England produces five continued exactly and absolutely true for ever and one-ninth bushels for each of her 22,000,- and ever. 000. This immense disparity in the produce of each acre is due to the manure furnished by the English grass lands for the cereal crop. In England there are three acres of grass to Teavenly Father, high and mighty King of furnish manure for every one acre of grain; in France less than one acre of grass to make manure for one acre of grain.

The whole grass question, and a good many other questions are summed up in the pithy aphorism put in the mouth of an old farmer :-'No grass, no cattle; no cattle, no manure; no manure, no crops; no crops, no farmers; no

A HINT TO BIRD DESTROYERS.

The grasshopper nuisance, though no doubt exaggerated by some and underrated by others according to their desires concerning the grain markets, or their views of charitable contributions, is undeniably on the increase. Whether the devouring insects are grasshoppers, Rocky Mountain locusts, or other creatures, certain it is that a few years since no such visitations were heard of, and now they threaten to become a standing menace to the foundation of industry of the country. Anything which seriously hinders the production of food is a public misforbest and surest foundation; that the scenes of hindrance it is a public grievance, The very some horses were bought to take the place of the bays, and one of them in one year knocked the bays, and one of them in one year knocked and truth and in the bays, and one of them in one year knocked and truth and in the bays, and one of them in one year knocked and truth and in the bays, and one of them in one year knocked and truth and in the bays, and one of them in one year knocked and truth and in the bays, and one of them in one year knocked and truth and in the bays, and one of them in one year knocked and truth and in the bays, and one of them in one year knocked and truth and in the bays, and one of them in one year knocked and truth and in the bays, and one of them in one year knocked and truth and in the bays, and one of them in one year knocked and truth and in the bays, and one of them in one year knocked and truth and the bays, and one of them in one year knocked and truth and tr down a hip, perhaps by the narrow stall, and and truth and justice, religion and piety prevail, and flourish among Thy people. THE END OF THE UNIVERSE. A writer in the Fortnightly Review makes an effort to show that, although we can in no way time the beginning of the universe, we have much evidence to show that the world began to solidify between one and two hundred of millions of years ago, and that, though we can say tractive stores was also instanced as a possible nothing as to the end of the universe, the end of this earth, and with it of consciousness upon the earth, is as probable as science can make new fall styles being yet exhibited, and the anything. The reader will surely not be tempted to patient reading by the gloomy conclusion that study of the origin and probable destiny of the universe is useless, because we have from a scientific point of view no date to go upon. In any case all we know is that the sm is going out. If we fall into the sun then we shall be fried. If we go away from the sun, or the sun goes out, then we shall be frozen. So that, so far as the earth is concerned, we have no means of determining what will be the character of the end, but we know that one of these two things must take place in time. But In regard to the whole universe, if we were to travel forward as we have traveled backward in time, consider things as falling, we should finally come to a great central mass, all in one piece, which would send out waves of heat through a perfectly empty ether, and gradually cool itself down. As this mass got cool it would be deprived of all life or motion. It would be just a mere enormous frozen block in trated by a few figures comparing the pro- the middle of the ether. But that conclusion is one which we have no right whatever to rest upon. It depends upon the same assumption

HEALTH OF FARMERS.

Agriculture should be the most enobling of all vocations. It would be, if farmers cultivated the earth as teachers develope the head and preachers educate the heart. Teachers all aim to train the thoughts and feelings to truth and love, unity and happiness. Farmers should train the earth to produce such crops and fruits. and such only as are conducive to the best health and highest welfare of human beings. Then would their calling be transformed from one of degrading drudgery and interminable toil to one of refinement and luxury. The germinating seeds, the waving grains, the luscious fruits, so suggestive of the source of all life and blessing, and the harvest season, so typical of a resurrection and immortality, ought to make the life an agriculturist a continual pastime. And this would be the farmers' life, if farming was managed as it should be. Farmers have unequalled natural advantages for health strength and longevity. The statistics of disease and the tables of mortality, however, are against them. This is not due to that vocation but to their misuses of it. No class, as a whole, is probably so reckless of health conditions. So far as our acquaintance with the habits of farit compels the conclusion, that, as a rule, the dietetic habits of farmers are worse than those of any other class, who have the means

#### AN ELECTION

For one hundred and twenty delegates to a convention to amend the State Constitution, will be held on the first Thursday of August, 1875. The Convention will meet at Raleigh on the 6th of the following September.

"That when a voter is challenged at the polls up- of employment. In Oldham, only six out on demand of any citizen of the State it shall be of 102 mills are working. the duty of the Inspectors of the election to require said voter before being allowed to vote to prove by the oath of some other person known to the judges the fact of his residence for thirty days previous thereto in the county in which he proposes to

Remember also that the election law says " No elector shall be entitled to register or vote in any other precinct or township than the one in which he is an actual or bona fide resident on the day of election, and no certificates of registration Accounts from Algarve show a similar shall be given."

If, in spite of protest and challenge, an illegal vote is polled, let the proper affidavits be at once made before a proper officer, so that the parties thus illevally voting may at once be arrested and thereby prevented from escaping the penalty provided by law in such cases. We repeat, let th proper affidavits be made and let the parties fraud ulently voting be at once arrested.

We issue our paper a few hours earlier th week, so that at least some of our subscriber may receive it on the evening before the elec-

#### CHEERING PROSPECT.

Last night's mail brings us the most encouraging news from every portion of the State The white Conservatives and Democrats are jubilant, and the Republican leaders are des pondent. Their men refuse to dance to the Civil Rights fiddle, and take no interest in the election.

A leading, reliable paper, from the Easter part of the State, says;

"This is no ordinary election. When mem bers of the Legislature, and State, county and township officers are elected and prove false to your interests, repudiate them, elect better men, and repeal the bad laws they have passed. But not so in this Convention election. The Radicals claim as you know, that the Convention is sovereign, and that the restrictions are not binding. They may disregard all restrictions and frame a constitution to perpetuate their power, to force negro rule u pon you forever. And throwing themselves back upon their sovereignty, they may REFUSE TO SUBMIT THE CONSTITUTION TO THE PEOPLE FOR RATIFICA-TION. They have done more high-handed acts than this, and if you give them the power, they will do so again. It will be too late to com- er, the counties are out of debt, and their paper plain, after you are bound hand and foot by is readily taken at face value, and a number of a day, and voted the State in debt for nothing, another Radical constitution, worse than the them have from ten to twenty thousand dollars present one."

# A Voice from the East.

part of the State, we give below some extracts are facts. - Raleigh Sentinel. from a reliable paper, the Wilson Advance:

Remember that the Convention is already called, The question for you to decide is, whether it shall be in the hands of white men, or the Civil Rights party.

Remember that the Republican party have nominated for delegate to frame a constitution for the State of North Carolina, a negro, in accepting the nomination, said: "IF WE GET A MAJORITY IN THE CONSTITUTIONAL CONVEN-

by the restrictions in the Convention bill, while ball entering the left breast, just below the nipemptions. The Rads, if they have a majority, what he had done. Here he wept bitterly, comrefuse to take the oath. Which party are you plained of a pain in his side, and said he bewilling to trust!

Remember if you elect a majority of Conservatives to the Convention, they will make such alterations in the constitution, as they may think the public interests require, and their work will be submitted to the people for ratification or foist upon you the Civil Rights Bill, tax you to pay the fraudulent debt of millions which they contracted, ruin the State, and then refuse to submit their work back to the people for their approval. Are the white men of North Carolina willing to run such a risk?

COUNTY EXPENSES.

The record shows clearly that the aggregate for the entire county expenses for a term of five years, under the good old system, was \$20,-301.87 (twenty thousand, three hundred and one dollars and eighty-seven cents.)

From the above sum there was expended for school purposes, \$1,300 cach year, which must be subtracted from the above sum, which will leave for county purposes alone under the old system, the sum of \$13,801.87, making a differprinting executed neatly, expeditiously, and ence in favor of the old system for the term of

It will be found that these sums when added will make an aggregate for the entire county expenses for a term of five years, under the old system of \$20,301.87.

Let us now see what it has cost the people of the county to run their county government for five years under the new system.

We set in by reference to the settlement book of the clerk of the county commissioners' court. The settlement with the sheriff as recorded the Conservative party did in four years. there shows that for the year 1870 the sheriff is charged for county purposes alone, exclusive of all expenditures for public schools.

For the year 1870, \$ 5,306.56 \* 1871, 7,788.67 \* 1872, 10,344.41 ·· 1873, 11,873.98 " 1874. 12.039.16

Aggregate for five years \$47,352.78

Thus it appears that under the new Constitu tion the people of Forsyth pay the enormouse sum of about \$33,550 for each five years more than it required to carry on the business of the county under the old constitution.

SHORT PARAGRAPHS

ELECTION MORNING READING. REWARE OF FALSE REPORTS TO-DAY

Will you stay away from the polls and let the Civil Rights party control the Convention, which will, most assuredly, be held.

REMEMBER, that, although a Federal Judge in Tennessee decided the Civit Rights bill unconstitutional, he did so upon the grounds that the regulation of such matters belongs exclusively to the States. If a State makes such a law it is constitutional. Now if the white men of North Carolina are opposed to having Civil Rights in their Constitution let them vote the Conservative Democratic ticket, in this county for Joseph Masten.

The Radical party, while in power, spent more of the people's money in two years than

When the civil rights bill was the subject of excitement, the leaders of the Republican party asserted that no such bill could become a law. Nevertheless it did become a law. Is not this enough to create at least a strong doubt as to the intentions of these same leaders now, in the contest before us?

The Convention is really a necessity, as successful legislation, in many instances, cannot be had until a change is made, as the Consome parts of it frequently conflicts with others. The expense of the Constitution will be storm, as it came up the valley of the Rhone more than saved by the decrease of taxes.

If the Republican leaders and strikers tell you that this or that prominent man of this county, of the Conservative Democratic party, is opposed to Convention, don't you believe it. Attempts at that game have already been

The leaders of the Radical party say, if they can obtain a majority in the Convention, they will redistrict the State so as to give them power for the next thirty years.

Every Republican will be at the polls today. Let no true Conservative or Democrat be absent, but turn out and vote as if the election depended on his vote. It will not mend matters, after the election, to be sorry you did not

The leaders of the Republican party, in this county say, "it don't matter what they say or print, whether its false or true, in election times." The people of the Republican party in the shape hardly of a hail-storm in the ordon't approve of such conduct, we know, and will put their seal of condemnation upon it at the ballot-box to-day, thereby teaching the poli- horizontally before the tempest blast. In the and who took her husband's death very much ticians a wholesome lesson.

The negroes demanded the passage of the Civil Rights bill, and they got it. The negroes in the Eastern part of the State now demand more showing in the State Constitution, for instance, Civil Rights and Mixed Schools.

Remember the Radical Legislature involved the State in debt \$16,000,000 by bribery and corruption. Are you willing to sell every homestead in the State to pay that fraudulent debt, that has never benefited you a cent? If you are you can vote the Radical ticket.

Remember that the Radical dodge about adjournment is a grand humbug, pronounced by Judge Pearson, a Radical Supreme Court Judge. to be REVOLUTIONARY. It is only a trick to catch the votes of Conservatives who were opposed to calling a Convention at this time.

Remember the Republicans have nominated negroes in Warren, Halifax, Edgecombe, New Hanover, Chowan and other counties to frame a Constitution for you and your children to live under. The only way to defeat that party and place your State in the hands of white men, is to vote the Democratic Conservative ticket.

If you are for Civil Rights and negro rule, vote the Radical ticket? What true white man The object of the Civil Rights bill was to put

the poor white child by the side of the negro. The Radicals will force this upon us if they control the Convention.

Remember, when the Radicals talk to you about the expense of a Convention, that the only Radical Legislature that ever assembled in North Carolina, voted themselves seven dollars \$16,000,000, which is more than the State owed in bank. And in every county where the Rad- before for all her improvements, and for all past eal party has been in power, the county scrip time put together. Do you want such a party has been at a discount, and nearly every county to rule your country again? If not, go to the As a number of our Republican friends have has asked for a special tax to feed and fatten election and be sure to vote the Conservative

TERRIBLE STORM AT GENEVA-DEVAS-

TATION BY ICE IN MIDSUMMER. Mr. T. Adolphus Trollope writes from Gene-

va as follows of the storm of July 8th: At about 8 o'clock a few heavy drops began to fall. And at the same time the whole circumference of the horizon began to be fitfully illuminated by flashes of sheet lightning. But there was no thunder. Once only during the entire night was there one terrific clap of thunder, and that was when the storm was just over, a terrible sort of announcement that the work of the tempest was done. The lightning gradually increased in intensity, and lost its character of fitfulness. It become, indeed, actually and without exaggeration, continuous .-The entire atmosphere seemed to be an element of flame. The city and every object in it was enveloped in the flashing light. And all this time there was not the slightest movement of the air in the streets. At about 11 o'clock it was observed that any small objects which happened to be lying on the roofs of the houses began to feel the wind. They were caught up and whirled around as by a cyclone. And still there was no movement of air in the streets. -And this continued till as nearly as possible midnight. By that hour all Geneva, a population of early habits, had gone to bed. But on the night of the 7th of July they did not remain there long. At midnight the tempest came. It came mainly from the Jura range and from the southwest travelling in that direction toward the basin of Lake Leman, it stitution is so complicated and confused that seemed, and the accuracy of the observation has since been verified, that the path of the toward Geneva was very narrow in extent. But as it neared the lake it seemed to spread out into a fan-like form with a front sufficiently wide to embrace the entire ci ty. Few of the citizens of Geneva will forget the

ten minutes which followed that midnight. It did not last much longer than ten minutesfrom that to a quarter of an hour-but what ten minutes it was! the Mauvais quart d'heure of Rabeliais with a vengeance! At the end of it the city of Geneva was wrecked as no army of besiegers could have wrecked it in the same space of time. It came with the suddenness of thunderclap. Only for a few minutes previously there had been a warning voice, which those who heard it describe to have been a terrible one-which was not the sound of wind even when it blows its hardest, which was not the sound of thunder; but a kind of strange, hollow, angry growl, with an ever crescendo force. Then just on the stroke of twelve came the bodily presence of the storm itself. It came dinary acceptation of the word, but in that of an almost compact mass or sheet of ice, driven Geneva, save here and there one capriciously spared by reason of some protecting roof, was smashed to atoms and extinguished. But the city was not in darkness, for the masses of coespecially large extent of window glass. The process of its manufactures of watch work and ngs, besides having all the glass shivered; and calmly bedrooms and staircases and saloons were thus thrown open to the storm, and in a minute or rather, compacted themselves into one solid mass as soon as they fell. Accurate inquiry enables me to state, without fear of exaggeration, tions to attend that the greater part of the hailstones before

DEATH OF ANDREW JOHNSON.

GREENVILLE, Tenn., Aug. 1, 1875. This morning at an early hour the streets of our usually quiet village were alive with people wearing an indescribable look of expectancy and solemnity, portentous of some dire calamiwhich usually prevails on the day of rest; but, to the seat. instead, an expression of sadness was on almost every countenance, and well might this be. At that early hour a million of his countrymen had read the sorrowful tidings, borne on the lightning's wings from the Gulf, and from the Atlantic to the Pacific, across the far western plains, of "Andrew Johnson's death," and his lifeless body was being brought back to the home of his choice, among the people with

vigor of health and manhood. On the arrival of the train at seven o'clock the remains were taken charge of by the Masonic fraternity, and placed on the hearse pre-

ed his wonderful career from the tailor's bench

to the White House. And his neighbors and

friends had assembled to receive with honor,

few days ago had moved among them in the

THE PROCESSION

then moved down Depot street to Main, thence to the residence of the deceased, where the body was removed from the coffin and placed in a beautiful silver mounted casket, lined with white satin, being meanwhile enfolded in a beautiful silken national flag, while in one hand was the constitution, thus complying with his oft repeated request that the flag of his country should be his winding sheet and in his hand should be paced the sacred instrument he so much revered in life. The banner was the gift of Perez Dickinson, of Knoxville, an old and esteemed friend of Mr. Johnson. The casket bore the simple inscription:-

### ANDREW JOHNSON.

Born 1808. As is known, the ex-President died at the residence of his daughter, Mrs. Brown, in Carter county, about forty miles from this place and distant from the railroad six miles, and in and distant from the railroad six miles, and in pletion. A large number of smaller houses order to meet the southern bound train this are going up in that city. morning at Carter's depot the remains were brought over at twelve o'clock last night .-They were accompanied by his son, Andrew Johnson, Jr., and his daughter, Mrs. Patterson, his other daughter, Mrs. Brown, remaining behind on account of the feeble health of her mother, who has been an invalid for years first instant, every gaslamp in the streets of to heart. For several weeks Mr. Johnson's health has not been as good as usual; but. thinking the pure air of the mountains would be beneficial he left for Carter county last Wednesday, riding over from the station in a hack. agulated hail, which already were lying on the Shortly after reaching his daughter's residence pavements of the streets, reflected the blue he ate a hearty dinner, and soon afterward, light of the lightning in a ghastly and ominous while conversing with one of his grandchilmanner. STATE ITEMS

The Asheville Pioneer says: Solon Robinson, the venerable and venerated author of "Hot Corn," and for many years agricultural editor of the New York Tribune, arrived here on Sathome of his choice, among the people with urday, and stopped at the Bank Hotel. He is whom he had east his lot, and who had witness- charmed with our country, and thinks it will ultimately become the great sheep-growing and cattle raising section of this country. An opinion like this, from one who has travelled over every State in the Union investigating its agriand respect the lifeless form of him who but a cultural resources, will do more to recommend it to the favor of capitalists and immigrants than all the newspaper articles that have ever been written in its praise. It is truly a blast from the bugle of Roderick Dhu.

STATE DENTAL SOCIETY .- The Dentists of pared for their reception, which was draped in black, even the spokes and hubs of the wheels being covered with the sombre habiliments of ciety" and for the transaction of other business important to the Profession. A large attendance is expected.

Raleigh News: Judge Pearson of the Supreme Court, on Monday rendered an opinion which is interesting under certain circumstances. In this case the parties having made a contract of marriage; and on the day previous to marriage the woman executed a deed of gift of her real estate to the value of \$3,000 to her step-mother without the knowledge of the man. After the marriage the husband sues for the recovery of the land back to the wife upon the ground of fraud. The court held that the deed was fraudulent, intended to deceive the man, and the step-mother is ordered to convey back the land

Jos. Beckley, the "faiker" who drugged Mr. James Boyd, of Chester, S, C., in this city, last Fall, and then robbed him, and who subsequently removed his case to Cabarrus, was convicted at the recent term of court in Concord, and sentenced by Judge Schenck to ten years' hard labor in the Penitentiary. He has been taken to his new quarters.—Charlotte Observer.

ROUGH ON VEHICLES .- Within the past foureen days our enterprising liveryman, Mr. E. T. Clemmons, has had three fine top buggies smashed by different parties—strangers in search of health, pleasure and adventure. Monday one of them was brought home so completely shattered that Weddin had it run through a sand-screen to get the parts thoroughly separated, and the whole was taken to the wagon shop in a half bushel measure. He is now stall-feeding an ox and rigging up a sled for hire. None but expert drivers need apply .- Asheville Pioneer.

## GENERAL NEWS.

The July returns to the Department of Agriculture show that the acreage in corn is about per cent. greater than last year. New Engand has reduced her acreage about 14 per cent., and the Pacific States about 1 per cent. All the great corn-growing regions have increased

THE POSTAGE ISSUES OF THE LAST TWO were smashed into myriads of fragments. Ge- worse, and on Friday night consciousness for-neva is especially also a city of skylights, and sook him, notwithstanding the unremitting of- by Third Assistant Postmaster-General Barber shows that 107,916,000 postal cards were sold the fiscal year which ended June 30 last, against 81,079,000 issued for the year which ended June 30, 1874. The increase, which is equivalent to about 18 1-6 per cent. seems to indicate that the postal cards are growing in popular favor. The value of the issue of ordiary postage stamps during the year was \$18 .-271,479, an increase of \$996,237 over the previous year. The issues of newspaper and periodical postage stamps amounted to \$815,902 47; of ordinary stamped envelopes and wrappers to \$4,124,477 34, an increase of \$242,284 58; of long served. Extensive preparations are being postal cards, \$1,076,160. The total issues for sale to the public was \$24,588,018 81, an increase of \$2,219,764 05 over the last fiscal year. The sale of official postage stamps for the fiscal year amounted to \$834,980 25, a decrease of they fell were about the size of chestnuts or here, where they will be joined by the citizens \$580,874 95 since June 30, 1874; official stamp-

> THE LABOR QUESTION.—The labor question under our constitution and laws to all the privworth hundreds of thousands of dollars. They control eigar making, boots and shoes, underwear, &c., and are tinsmiths, carpenters, broom-makers, woolen and cotton weavers. fishermen, gardeners, &c. They work on roads, in the parks, in the factories and households, and already regulate the wages of labor. The y monopolize those female pursuits of washing, ironing, and vending vegetables, and a better grade of them are said to be expert clerks and counters of money in banks. They can live on a quarter where it takes a white man a dollar. and as a rule live in crowded dens without cleanliness or comfort. Their women in this country are few in number, and nearly all of immoral character. They represent the social equivalent of 350,000 population politically if they should take it into their heads to regulate the country, and as their increase does not depend upon nature, but immigration from a country of 250,000,000 population which can spare enough without missing them to supersede the entire laboring population of America, the immediate future of California will be a probable index of not very remote future for the whole country.

Last week the leading publishers held their annual trade sale in New Vork. The sales reached about a quarter of a million dollars.

The Gadsden (Ala.) Times says: On Thursday of last week a child of Mr. A. Longley, who lives about two and a half miles from town, while playing in the yard was attacked by a rooster, and so furious was the onslaught that the child was knocked down and spurred several times in the face and head before the mother, who was near by could rescue it. Dr. to announce to the people of the United States Ewing, who was called in, informs us, that the death of Andrew Johnson, the survivor of upon examination, he found that one stroke of the spur had penetrated the brain through the his honored predecessors, which occurred in suture connecting the occipital and temporal Carter county, East Tennessee, at an early hour bones, which in young children are not knit together. The little sufferer-eighteen months old-lingered in great agony until 2 or 3 o'clook Saturday morning, when death came to it's relief. Dr. Ewing says that during a prachaps the first in the history of the world.

PERSONALS .- During the past few weeks, Revs. A. G. Klose and A. Shultze of Bethlehem Theological Seminary, were on a visit to this mons. Mr. Klose's sermons are highly spoken of and the German discourse of Mr. Schultze was highly appreciated by many of our older citizens.

Prof. B. DeSchweinitz, of Pittsburg University, is also on a visit to his uncle, Rt. Rev. E. A. DeSchweinitz, and in company with Rev's. A. Schultze, R. P. Lineback, and Mr. J. T. Lineback, visited the Pilot Mountain with a view of taking measurements, &c. We learn they had a pleasant time.

FINE RAINS for the past few days, insuring a enough to give up the last speck of hope. fair corn crop.

Two men by the name of Atwood engaging in a quarrel with a negro in Yadkinville, became so exasperated that one of them stabbed the negro, so that he bled to death before assistance could be procured. The two Atwoods are in jail.

FOR CHOICE GOODS call on J. L. FULKERSON. Salem N. C., July 29.

ANCIENT PINE KNOTS .- Dr. Shaffner has a piece of pine which was washed out of the bank and Margaret Chitty and Wm. Eldridge, about of Bath branch several feet from the surface, having probably lain there for centuries. It is and Sist. Clauder, going as Missionaries to the charred at one end and no doubt helped to Cherokee Indians, John P. Blum driving their warm the shins of some Cherokee Warrior, as team. Our first nights camp was near Spainthis spot was a noted camping place during the hauer's, several friends accompanying us that Indian war of 1759, some six years after the set- far, among them father Zevely, Jacob Shultz, tlement of Old Town, and about the time Beth- John Chitty, Abraham Hauser and a few laania was commenced. Arrow heads, pieces of dies. We spent the evening in singing and pottery, and other relies have been found in the prayer. Next morning took an affectionate same locality.

A LARGE YIELD OF WHEAT .- A. M. Booe, Br. Clauder's party, they taking the road to residing near Mocksville, Davie County, thresh- wards Knoxville, while we struck for Cumberout 1289 bushels of excellent wheat a few days land Gap, which I have crossed ten times since since. The farm is situated on Dutchman's 1820. Creek, is among the most productive planta- My limited means compelled us to camp out tions in that county, and Mr. Booe is among nearly every night. My good wife had to bake the most energetic farmers in that sectionall going to show what can be done in old drudge after the wagon carrying the baby. The North Carolina. Mr. Berry Foster says he will remembrance of it makes me feel sad, though beat Mr. Booe, and we are anxious to hear the she is gone to her rest. We reached the end of result. Mr. Foster has the reputation of mak- our journey at my brother Jacob's, four miles ing the best whiskey, but Mr. Booc thus far north of Columbus, on the 28th day of October. bears off the palm in wheat growing.

Many of our farmers may say that in Davie land is better than in Forsyth. We admit that is is But what will our friends say, when we tell them that, within a mile of this place, a few years since, twenty-five bushels of wheat were raised on an acre of ground, and not the very best land about here, at that. This shows that with care and attention, our lands can be brought up to yield remuneratively in more ways than by raising Tobacco.

EXCURSION TO MOREHEAD CITY.-There will be a Railroad Excursion to Morehead city from this place, on the 19th of August.

Ticket for round trip only \$4 50.

The publishers of SCRIBNER call attention to the series of articles by Col. Waring, now being published in that magazine, under the title of "A Farm er's Vacation."

These papers are claimed to be among the most amusing as well as practically valuable articles which have appeared for some time past. Col. Waring is well known as an engineer and farmer, as well as a graceful and entertaining writer. In his recent European travels he was naturally attracted, not only by picturesque phases-quaint scenes and quaint people-but also by the various agricultural customs and devices. His article in the August number describes the pretty isle of Jersey, and tells a great deal that is of interest about the famous so-called Alderney Cow, which is here "at home." "A Middy in Manila" is a rollicking little ilmstrated sketch, which reads very like a familiar letter to some old "chum" at home. Albert Rhodes' paper, "Along the Seine," is timely through its summer quality. George W. Cable, of New Orleans, has a story entitled "Madame Deliciouse," which is thought by some to be his best work.

This number is very attractive in style and

THE ECLECTIC is a splendid number, full of the most instructive and entertaining matter. It is a pleasant change from political journalism to peruse the best selections of foreign litcrature, and these you always find in this mag-

Walkertown mail, via Salem Chapel, White Road, Belew's Creek Mills and Blakely: closes every Friday. personal observation.

Fifty years ago, the beginning of a Moravian congregation was considered such a monstrous job, that it was left to the U. E. Conference, located at Berthelsdorf, Saxony, to decide, and for a poor farmer and brickmaker to take up such an idea might be called in those days an "aircastle ' of no small size. For, let it be replace, and delivered several very excellent ser- membered, that I made and delivered the brick for the first addition to the original Salem [Female Academy building, in 1824. The idea of starting a congregation I kept pretty much to myself, until I could discern some signs beyond the boundaries of man. And, O! I wish I could tell you all the particulars how Providence directed my steps. After it was no longer : question about my moving to the West, I made my plans known to our brethren of the Prov. Helper's Conference at Salem, as that was the name and style of that body, but such mountains and whirlpools that they saw in the way

> I had one, and only one hope left. If I could see my confidential friend, Rev. L. DeSchweinitz and have a full talk with him, I thought the matter could be arranged; but he lived in Bethlehem, and I not a dime to spend or a day to lose. A way was opened, however, and I went to Bethlehem and there the fnture plan of Hope was matured. I returned home and made ready for the trip; and on the 29th of September, 1829, left. But it was a long, tedious trip. Our travelling caravan consisted of myself, wife and four small children, Samuel Rominger teamster, John Rothrock, Mathew one-half too many. In our company were Br. farewell, our friends greatly sympathizing with me and mine. At Abington we parted from

bread for the next day, and during the day MARTIN HAUSER.

AUGUST FLOWER.

The most miserable beings in the worldare those suffering from Dyspepsia and Liver Com

plaint. More than seventy-five per cent. of the people in the United States are afflicted with these two diseases and their effect; such as weak stomack, sick headache, habitnal costiveness, impure blood, heart burn, waterbrash, gnawing and burning pains at the pit of the stomach, yellow skin, coated tongue and disagreeable taste in the mouth, coming up of the food after eating, low spirits, &c. Go to the Drug Store of V. O. Thompson, Winston, N. C., and got a 75 cent bottle, or a sample bottle for ten cents.

THE UNIVERSITY OF NORTH CAROLINA. This Institution will be re-opened on the FIRST MONDAY IN SEPTEMBER NEXT, the term ending the 2nd Thursday in June 1876, with a vacation of two weeks at Christmas. It has been re-organized on the eclectic system, combining however, three curricula of Arts, Science and Agriculture. Instruction will be given in the branches of learning usually taught in the best Colleges.— Special instruction provided in Agriculture and the Mechanic Arts. An able faculty has been appointed. The buildings are thoroughly repaired for the reception of several hundred students,

AS there is nothing poisonous about it, there need be no fear of placing it in the way of children.— It will not hurt any one even should it be eaten, and is much cleaner than any other, as the flies never leave it after alighting; therefore they are never found dead on your closet shelves, in your victuals and every where else in the house, a thing which renders all other exterminators so obnoxious. Try it, and its effect will soon be apparent

The Wilson Sewing Machine. - Who cares for the paltry "sum" of 15 dollars saved in buying a Sewing Machine? The man who cares is the farmer, who makes his money by the sweat of his brow, and buys the "Wilson," the best first class machine yet made; and saves his 15 dollars to put in his own pocket where it belongs. The gentlemanly representatives of the high priced Sewing Machine Companies want this 15 dollars, but the farmer worked for it, and had rather keep it himself. The farmer is right every time. Before you buy a Sewing Machine, see and examine the first-class, low priced Wilson, for yourself and have a talk with A. M. JONES, Agent,

A BARGAIN.

100,000 lbs. Old Casting Wanted! At the

Salem Agricultural Works, Salem, N. C. The Wilson Sewing Machine is comparatively a new machine, patented and put upon the market in 1871; since that time the Company have made and sold 200 thousand machines.

This record of sales for the first 4 years of existence, has no parallel in the history of any other Sewing Machine Company that was ever organized. These are facts that no sophistry can overleap, and no stretch of human ingenuity erade.

Apply to A. M. JONES, Agent,

- "Love your neighbor as yourself"-
  - So the parson preaches; "That's one-half the decalogue"-So the prayer-book teaches,
  - Half my duty I can do With but little labor; For with all my heart and soul, I do love my neighbor.
  - Mighty little credit, that, To my self-denial;
  - Not to love her, though, might be Something of a trial.
  - Why the rosy light that peeps Through the glass above her Lingers round her lips; you see E'en the Sunbeams love her.
  - So, to make my merit more, I'll go beyond the letter; Love my neighbor as myself, Yes, and ten times better.
  - For she's sweeter than the breath Of the Spring that passes Through the fragrant, budding woods O'er the meadow grasses.
  - And I've preached the word, I know, For it was my duty
  - To convert the stubborn heart, Of the little beauty. Once again success has crowned
  - Missionary labor, For her sweet eyes own that she Also loves her neighbor.

# Liumorous.

SOMETHING LIKE.

Close upon the shore of Lake Winnepisogeo is a town and in that town dwells a man whom we will call Amber. Mr. Amber keeps a store, and is a genial, accommodating man; he keeps for sale everything which the good people of the country can reasonably expect him to keep. Particularly has it been the practice of Mr. Amber to keep a barrel of whisky on tap in his cellar. One in the fall, and one in the spring will generally carry him through. He is very careful to whom he sells, and so far as is known, the authorities have never given him any trou-

One day Mr. Eliphalet Spooner entered the store with a slight protuberance visible upon his left breast Mr. Spooner was a deacon and most proper man. He called the merchant aside, and asked him if he had any good whisky. Amber nodded in the affirmative.

"Will you let me have a pint?" and the deacon pulled from his breast-pocket a pint bottle. "Certainly," said the trader; and forthwith he departed for the cellar. When he returned, he brought the full bottle, carefully wiped and corked.

"What is to pay?" "Fifty cents."

quor. He did this twice, and the expression where, until you have learned what we offer.
No. 11. 1y. G. Stinson & Co., Portland, Mc. "Mr. Amber," he said, "I'm getting this for

my wife. Is this the very best you have?" "Oh! you want it for medicine!" "Yes, certainly."

"If that is the case-" the sentence was finished with a smile, and he reached forth for the bottle.

Down into the cellar went the storekeeper again. There was no need that he should empty the bottle and refill it, for he had but one solitary barrel from which to draw; so he took a a turn around, and soon came back, wiping the bottle afresh.

"I shall have to charge you 87 cents for this, Mr. Spooner,"

Having paid the extra charge with the utmost cheerfulness, Mr. Spooner placed the bottle again to his lips and tasted critically.

"Aha!" he uttered with a bright smile and a grateful nod, "this is something like!" And he went away entirely satisfied. And Mr. Amber, also, notwithstanding the fraud he had perpetrated, appeared to be satisfied, if one might judge by the quiet smile that illuminated his rubicund visage.

A bashful and not over educated fellow went to see his girl the other night, and as he started away he put his arms around her and whispered in her ear, "dearest, I love;" and she responded, sweetly, "ditto," meaning, of course, a reciprocation of his tender passion. The young man could not find "ditto" in his vocabulary and asked his father the next day as they were hoeing cabbage, what it meant. The old gent rested a moment on his hoe, and pointed to the cabbage in front of him with the remark: "You see that cabbage?" "Yes;" responded the youth. "And you see the next one there?" "Yes." "Well, that is called 'ditto.' " "Damn her?" exclaimed the impetuous youth, "she called me a cabbage head."

Very Choice Trees and Plants. TAVING TAKEN THE AGENCY FOR Mr. 6, AS. Bellis' extensive "Butterwood Nursery." lo-ated at Littleton, in this State, I am now prepared o fill orders for TREES and PLANTS of the choicst and most desirable varieties, and on the mos tisfactory terms.

Satisfactory terms.

I would call special attention to the new and very early varieties of PEACHES—The BEATRICE, LOUISE and RIVERS—all ripening ahead of Hale. These have now been thoroughly tested in this country, and have obtained the commendation of all who ave seen them. Mr. Bellis commenced packing his Beatrice, last year, (from 5,000 trees) on the 5th of June, shipped them to New York, where they ALL arrived in PER-FECT ORDER, and sold for \$6 to \$8 per bushel crate.— Here they will ripen from the 12th to the 20th of June.
Prices of Beatrice, Louise and Rivers \$4 per dozand \$20 per 100. Other varieties, as per Catalogue.
I would also direct attention to the Newman Seed-ING STRAWBERRY of Southern origin, well know and very highly esteemed for a number of years,but until recently, closely held in private hands.— This berry is large, of finer flavor than Wilson's and two weeks earlier, remaining in bearing for nearly three months, and is perfectly adapted to our soil and elimate. It is a remarkably firm and solid berry.
Prices of Plants.—50 cents per doz; \$3 50 per 100;

A large stock of Pure Wilson's Albany on hand. Plants very fine. Send for Catalogue. Salem, N. C., Nov. 5, 1874.

THE WILSON SHUTTLE SEWING MACHINE.

\$2.00

In Eighteen Hundred and Fifty-four the original incorporators of the manufacture of Sewing Machines, and from that time to the present their time, talent, energy and PLOWS, Cultivators, Horse Powers, Threshers

Machine that would be simple to handle, durable as steel and iron could make it, with unlimited capacity, unexcelled by any other machine, regardless of name or price, and withal to comine the price within the reach of all classes of people! and success crowned their efforts in the year 1870, in the production of the celebrated Wilson Shuttle Sew-ING MACHINE, which combines all the Elegance, SIMPLICITY, DURABILITY and STRENGTH possible for any Sewing Machine to attain.

Notwithstanding the combined forces of the manufacturers of other sewing machines and their agents throughout the world, to prejudice the world

The public have believed for a long time that a N. C. good reliable Sewing machine could be manufactured and sold at a reasonable price; nevertheless there were a few who lent a willing ear to the misrepresentations of competitors of high-priced machines, and thereby wilfully deceived themselves.

WILSON SEWING MACHINE COMPANY embarked in the

capital have been employed in making First-Class Sewing Machines, with varied success attending their efforts; it being their constant aim to produce a SHUTTLE OF LOCK-STICH

against the Wilson Machine, in consequence of its incomparable excellence and extreme low price, our business has gradually increased until the sale of the Wilson Machine is unprecedented.
